

# Insights around Resilience, Innovation and Local Action

United Nations Development Programme

UN Climate Technology Centre & Network

## UNDP's Local Action Strategy and Service Offer

### Local empowerment

Local empowerment  
Support local actors through a whole-of-society approach – government, civil society, private sector

### Resilience

Support local actors in building the socio-ecological resilience and productivity of their rural and urban landscapes

### Investment

Transform financial and funding flows to local actors to accelerate and sustain collective action by local government, entrepreneurs and civil society

<https://climatepromise.undp.org/what-we-do/flagship-initiatives>

**UNDP's Adaptation Innovation Marketplace:**  
 Platform designed to be a flexible mechanism to channel direct finance to local actors working on climate change adaptation, with the ability to address varied thematic and funding criteria.

## ADAPTATION FUND CLIMATE INNOVATION ACCELERATOR

Photo credit: UNDP

**US\$20m**

Funding by UNDP and  
CTCN/UNEP

**100+**

Countries eligible for funding

**50+**

Entities receiving funding

**US\$250000**

Maximum grant funding

<https://www.adaptation-undp.org/afcia>

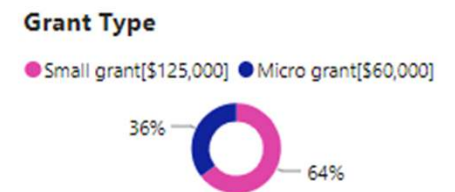

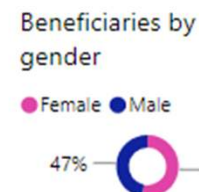

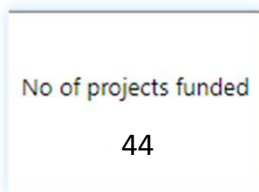

### Overall Objective:

To support the development, diffusion, and evidence-building of locally-led innovative adaptation practices, tools, and technologies

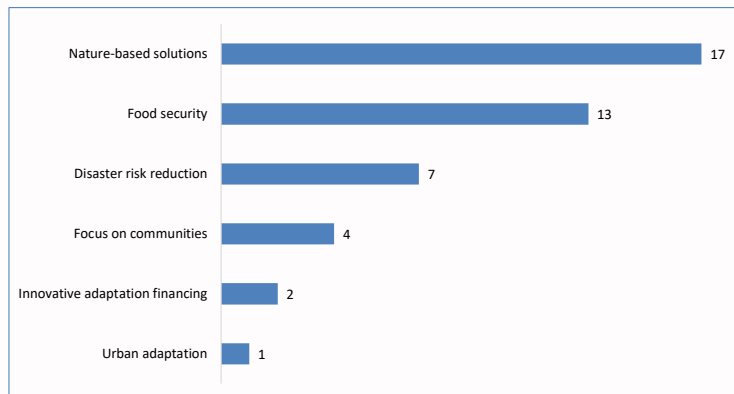

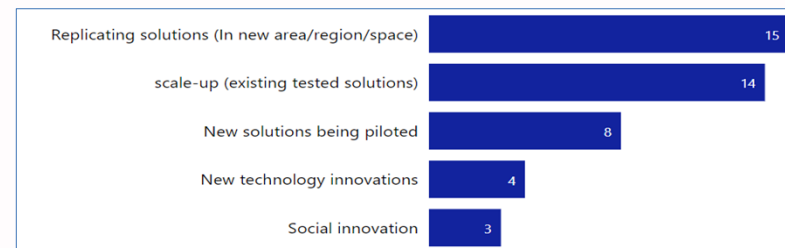

# UNDP-AFCIA's Dashboard Snapshot

## Distribution of Innovative solutions per sector

## Type of innovative solutions being implemented

## Geographical location - cohorts 1 and 2

\* Countries with orange dots have more than one grantee
