

YOUTH4CLIMATE

Deep Dive Session 2

*Dive Deep into Our New Thematic Areas of the
Call for Solutions 2026*

March 10th | 2:00 pm CET

What you'll learn:

- Overview of the Youth4Climate Call for Solutions 2026 and its thematic priorities
- How climate-resilient design and the built environment can reduce disaster risks and protect vulnerable communities
- Advancing ethical, circular, and climate-positive approaches to transform production and consumption
- Solutions that restore ocean health while inclusive, low-emission and climate-resilient blue economy models
- Youth-led initiatives addressing climate-induced risks and security challenges
